# ABC

## SUMMARY

Data Scientist with a B.Tech in Bioengineering and a solid foundation in Data Science and Advanced Machine Learning. Experienced in medical device quality assurance, biomedical image processing, and healthcare analytics. Passionate about applying analytics to bridge technology and healthcare for data- driven innovations.

## PROFESSIONAL SKILLS

| | | | |
|---|---|---|---|
| Advanced Excel | Python | Power BI | Machine Learning |
| SQL | Statistical analysis | Tableau | Deep Learning |

## PROFESSIONAL EXPERIENCE

**Intern, Quality Assurance, AVI Healthcare Pvt. Ltd ,Mumbai** **Jan 2024 - Jul 2024**

- Collaborated with QA team to ensure regulatory compliance for respiratory products.
- Conducted quality testing and root cause analysis for process improvement.
- Gained exposure to quality systems in biomedical manufacturing.

**Biomedical Intern, ONP Prime Hospital,Pune** **Jun 2023 - Aug 2023**

- Studied biomedical equipment applications and maintenance protocols.
- Supported preventive maintenance and calibration to enhance diagnostic accuracy.
- Assisted in troubleshooting and resolving equipment malfunctions.

## PROJECTS

**AI-Based Medication Recommendation Engine for Healthcare**

- Built a machine-learning medication recommendation system using clinical data research and patient-symptom analysis.

**Impact of Geopolitical Risk on Gold and Silver Price Dynamics**

- Built an interactive dashboard to evaluate how geopolitical risk influences gold and silver prices, volatility, and returns across multiple time periods.

## EDUCATION

**Post graduate program in data sciencs and analystics with advanced ML track** **2025**

- Imarticus Learning

**Bachelor of Technology (B.Tech)in Bioengineering** **Jun 2020 - Jun 2024**

- D.Y. Patil International University, Akurdi, Pune

## CERTIFICATION

- **Agile Project Management**
- **Bioinformatics with Python**
- **AI for medical Imaging**
